# DIGICOM ELECTRONICS

# QUALITY POLICY

**DIGICOM ELECTRONICS, Inc.** is committed to providing best-in-class printed circuit board assemblies, prototypes, electronic subsystems, systems, and products that are safe, effective, reliable, and that offer the highest possible overall quality and value to our customers. Management will promote total commitment to quality throughout our organization to assure compliance with all product, statutory, and regulatory requirements. We will continually maintain and improve the effectiveness of our Quality Management System, with an emphasis on research, implementing cutting-edge technology, equipment, and processes, eliminating defects, increasing throughput and yield, and on-time delivery, with the ultimate goal of enhanced quality assurance and customer satisfaction.

**On-time Delivery**

**Enhanced Quality Assurance**
